

Conditions of Pure Guard Guarantee

We guarantee the effectiveness of Pure Guard Paint Sealant and Pure Guard Fabric Protection for a period of three years when applied to new and used vehicles.

Any areas repaired or replaced through accident or damage should be immediately re-treated with Pure Guard by an authorised dealer.

Pure Guard Paint Sealant

Should there be within the guarantee period a general or panel by panel, colour fading of the exterior paintwork or a noticeable deterioration of the gloss finish, then Pure Guard, or an appointed agent will undertake to re-treat your vehicle free of charge.

This guarantee does not cover specific marks or damage (on paintwork) caused by stone chippings, bird droppings, insect fluids, tree sap and the like. Any animal or vegetable deposits must be washed off using Pure Guard Car Shampoo or comparable product otherwise etching or discolouration may occur. Failure to do so will invalidate this guarantee on our inspection. No paint finish, however protected, can withstand the prolonged effects of such corrosive matter.

Similarly, the prolonged effects of atmospheric pollution and/or acid rain may also cause paint defects, as may industrial deposits such as railway brake dust and the like. All such contamination must be washed off immediately. Always use a good quality shampoo such as Pure Guard Car Shampoo. Do not use domestic washing up liquids, as these contain salts, which could cause damage to your paintwork.

Important

- Cars should not be washed for seven days after Pure Guard Paint Sealant has been applied. This is the cure time for maximum effectiveness. Petrol spills around the filter cap should also be avoided during this period
- Regular washing with Pure Guard Car Shampoo (or comparable product) will help to avoid excess build up of pollution
- Old and dirty chamois leathers can cause streaks and other unsightly marks on otherwise perfect paintwork. Such leathers and other drying/polishing cloths should be discarded and replaced on a regular basis
- Mechanical carwashes will eventually damage Pure Guard Paint Sealant

Pure Guard InteriorGard

Should there be, within the guarantee period, any permanent stains to the seating fabric or carpets as a result of spills from water, coffee, soft drinks, milk or any similar liquids then Pure Guard or their appointed agent will undertake to have the soiled area cleaned and the protective treatment/s re-applied free of charge.

When spills occur remove all spillage as soon as possible by pressing a clean, dry towel or any other clean dry, absorbent material against the spill to remove most of the liquid. Vacuum if necessary, applying a mild cleaning solution.

Never rub at the stain, this only pushes it deeper and can damage the fabric. Dabbing is always best.

Pure Guard LeatherCare

Your leather seats are made from a unique natural product which is stretchable, does not tear, is breathable and permeable to air and moisture. The Pure Guard Leather Balm will clean and feed your leather seats helping to maintain that new look finish.

When cleaning is eventually needed, the leather cleaner included in your kit should be used strictly in accordance with the instructions. Leather surfaces are not covered under the Pure Guard Guarantee.

Pure Guard Alloy Wheel Cleaner

Pure Guard Alloy Wheel Cleaner easily removes brake dust and road grime, however alloy wheel products are not covered under the Pure Guard guarantee.

Notes

Plastic mirror housings and rear boot spoilers on used cars are not covered by this guarantee.

Before any guarantee work is carried out, permission in writing must be obtained from Pure Guard. Guarantees are not transferable.

The Pure Guard aftercare products are highly recommended for the maintenance of the Pure Guard protection package.
